	3 0 0 2					4 8 0 4	9 3 8 5				

Key / Explanation

For each question, the figures are the number of participants with ASD that gave each score as their satisfaction rating.

The second row of figures for each question is the totals of the row above – separated into negative, neutral and positive outlooks

The figures in pink are for the UK

The figures in green are for Portugal

The figures in red are for Spain

The figures in blue are for Lithuania

There were 16 from UK, 11 from Portugal, 10 from Spain, 11 from Lithuania

They did not all answer the first question from the UK, which is why the total does not add up to 16. Lithuanian participants did not answer the first question.

They did not all answer question 8 from Spain, which is why the total does not add up to 10

(There are two different question 1s, as this follows the format of the original PWI)
